

# EasyData

## Software

Windows 8

**Easydata is a software tool developed to manage measured figures of Easylux retroreflectometers.**

EasyData is supplied with ALL Easylux retroreflector models.

## COMPATIBLE DEVICES

Device	Description
Minireflecto	All models of MiniReflecto (Horizontal, Vertical and Road Studs)
Classic	All models of classic retroreflectometers
Dynamic	30-meter and 15-meter models

Download data by USB, Bluetooth interface or read it from SD Card to generate reports and visual overview where measurements have been taken. All Data can be filtered by value range and color, exported as XLS, KML and displayed on the map:

- **Filter data by value and color**
- **Generate Excel measurements reports**
- **Display measured points on the map (GPS required)**

Measured data can be classified by value and color.

Automatically generates editable Excel measurement

Measurement Register - 1

Time	RA(0.2)	RA(0.5)	RA(1.0)	RA(1.5)	Color
